Sir:

This communication is responsive to the Office Action dated April 24, 2002, concerning the above-referenced patent application.

Please amend the application as follows:

REMARKS

Applicant respectfully requests reconsideration of the present application in view of the foregoing amendments and in view of the reasons which follow.

Claims 18-37 stand rejected. No claims have been amended. Accordingly, Claims 18-37 remain pending in the application.

In the final Office Action, Claims 18-37 are rejected under 35 U.S.C. § 103 as being unpatentable over U.S. Patent No. 5,677,224 (Kadosh). The Examiner states:

Kadosh et al. shows (fig. 1U) . . . [t]he source extension is more heavily doped (P+) than the drain extension (P-). Kadosh shows all of the elements of the claims except the drain extension being deeper than the source
